Dimensions & Power Requirements

Dimensions are 5.75" wide by 3.65" deep and 2.35" tall

The JET Stream operates off a 36 volt 4 amp center positive DC power supply ***which is provided*** with the JET Stream. Should you have the need to lower the output power of the JET Stream, you can use a 24 volt 4 amp center positive DC power supply (not provided by JET Pedals).

*Never apply any voltage higher than 36 volts which will result in damage to the JET Stream and voiding the warranty.
