

-1 BPM

Used to decrease the MIDI clock by 1 BPM.

The image shows a screenshot of a MIDI controller's software interface. At the top left is a pink circular button with a left-pointing arrow. To its right are two dropdown menus: 'Message #' set to 'Message 1' and 'Midi Channel:' set to 'Channel 1'. Below these are two more dropdown menus: 'Press Action:' set to 'Press' and 'Message Type:' set to '-1 BPM'. At the bottom, there are three horizontal sliders, each labeled 'Number:', 'Value 1:', and 'Value 2:', all set to 0. Each slider has a pink knob and is flanked by minus and plus signs. At the very bottom, a text instruction reads 'Hold BPM Dial for 3s to Clear Preset'.
