

# Boost Off

Used to turn off the post loop clean boost.

Updated in v.2.3.0 a visual indicator (Red LED) will turn on/off whenever the Boost is on/off.

The image shows a dark-themed MIDI controller interface for a 'Boost Off' preset. At the top left is a pink circular button with a left-pointing arrow. Below it are two dropdown menus: 'Message #' set to 'Message 1' and 'Midi Channel:' set to 'Channel 1'. The next row has 'Press Action:' set to 'Press' and 'Message Type:' set to 'Boost Off'. Below these are three horizontal sliders, each labeled 'Number:', 'Value 1:', and 'Value 2:', all with a value of 0. Each slider has a pink knob and is flanked by minus and plus signs. At the bottom, the text 'Hold BPM Dial for 3s to Clear Preset' is displayed.
